V.I.T.A. PROJECT

VALVITALIA INITIATIVES for the **ENVIRONMENT PROTECTION** Project rises from the willing to contribute to the best preservation of our planet, our most precious resource.

The Project is developed over 2 synergic levels:

- **EVERYDAY HABITS:** counting on everyone's sense of responsibility, addressing the everyday habits towards a greater environmental sustainability, through very simple gestures, such as turning off the lights and reducing paper use.
- **SPECIAL ACTIONS:** VITA has introduced and will programme different actions intended to reduce the Company, and its employees, environmental and climate changing impact.

Valvitalia • Initiative • Tutela • Ambientale

EVERYDAY HABITS

A small gesture from everyone of us becomes a large force.

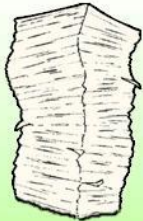

DID YOU KNOW?

**17
TREES**

MAKE

**1 TON
OF PAPER**

**SAVE PAPER
SAVE TREES**

**RECYCLING INSIDE ALL OF VALVITALIA
PLANTS**

**DIGITAL STORAGE AND
REDUCTION IN USING PAPER**

**RESPECT AND SAVING OF NATURAL
RESOURCES**

SPECIAL ACTIONS: used batteries collection

Batteries contain potential dangerous materials for the human and environment wellness, due to the high toxicity of some components.

**USED BATTERIES COLLECTION INSIDE ALL
VALVITALIA PLANTS**

SPECIAL ACTIONS: eco-friendly cleaning liquids

The 16,440 litres of cleaning liquids used per year at Valvitalia's facilities are eco-friendly!

SPECIAL ACTIONS: fully biodegradable compostene cups and spoons

Over 570.000 coffees and tea per year, in Valvitalia, are served in fully biodegradable compostene cups and spoons!

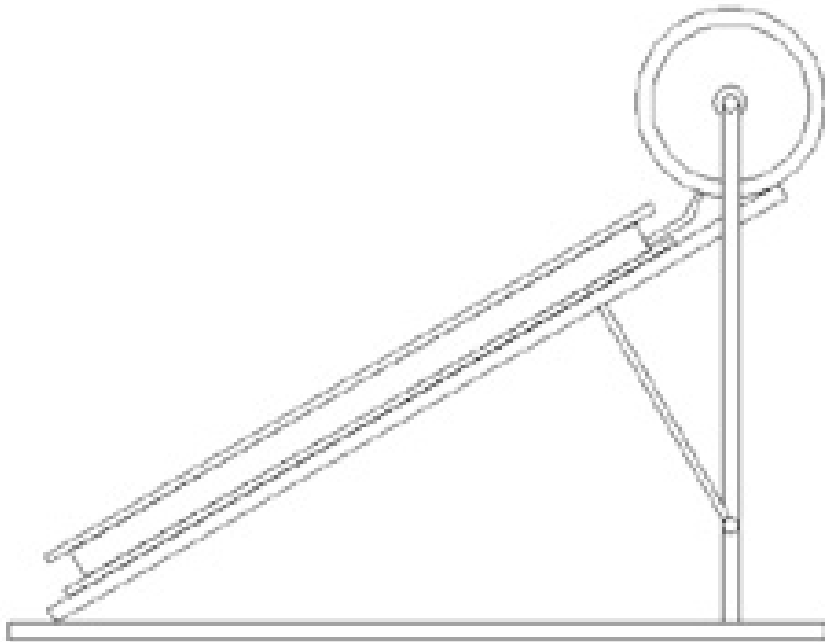

All the plastic which is used in Valvitalia is properly disposed and recycled... and where possible is even eliminated!

SPECIAL ACTIONS: solar panels

In order to limit the impact of the Company activities as much as possible, Valvitalia started with the installation of solar panels: it is already a matter of **195 TONS OF CO₂ EMISSIONS SAVED EVERY YEAR!**

The next step

Valvitalia Group will provide employees with water metal bottles and water dispenser, once again with the aim of reducing plastic use.

Simple gestures for great results!

By ourselves we
can achieve little
things...

Valvitalia • Iniziative • Tutela • Ambientale

... but all together
we can achieve
everything!
